

Release 7.14 has fixes only for Speech Recognition.

Previous versions of SmiTerm' s speech recognition will not work correctly until Google fixes the issue in the link below:

<https://issuetracker.google.com/issues/152628934>

(This was first identified in late March, and Google has not taken any action to date, so we have provided a “work-around” in release 7.14)
